March 18th, 2020

In an effort to keep local government functioning and to address the spread of COVID-19, effective tomorrow morning March 19th, 2020, the county building will be closed to the general public. All employees will remain at work to continue normal operations to the best of their abilities. This situation is being heavily monitored on a daily basis. We appreciate patience and understanding throughout this process as we are all doing the best we can with the information we have currently. Should there be any questions or concerns please feel free to reach out to me and I will respond accordingly. I can be reached on my personal cell phone at 765-749-4026.

Respectfully,

Shannon Henry, President
